Dear Kate,

Thank you for your letter. You ask me ^babout natural sciences in my school. I want say you what, natural sciences is very interesting.

In my school we learnt subject about nature: Biology, Physics, Chemistry, Geography. When you learn natural sciences you know many new things. In natural sciences many positive aspects. When you learnt Geography you know many countries, island, in future you can become which you want. When you learnt Biology you can helping people and animals. When you learnt Physics and Chemistry you can know Newton's law of universal gravitation and Mendeleev's table.

But any negative aspects. Something people not understand natural sciences. ~~It~~ They must try hard.

My recommendations on how young people could be encouraged to study very elementary. You must many reading books about natural sciences. You must learnt homework hard. You must hear teacher in time lesson.

Do You like Biology? Which you favorite subjects about natural
sciences? Like do you must give recommendations?

Best wishes,

Katya.
